

Thermal Survival Blanket

Golden Season's survival blanket protects against hypothermia and blocks bone chilling winds in the wilderness. It has a reflective surface to attract attention and increase chances of being found by rescue teams.

Windproof and water proof material

Golden Season's survival blankets are water proof and windproof and blocks the chilling winds. This fights hypothermia and increases the chances of survival.

Flexible, Compact, Easy to store and Transport

The survival blankets are packed in a small packet and easily opened for use.

Reflective surface

The survival blankets catches the light from the sun or other light sources increasing the chance of being found by the rescue team.
